

SPEAK UP

(Jim Mayer)

Speak up, speak up
Won't you tell us about it
You can ask, you can say
And you can sing
Speak up, speak up
And if you're outside you can shout it As long as it's
straight from your heart

Maybe you need
A friend or a hug
Or an extra potato chip
If somethin' is achin'
It's not time for fakin'
There's something special only you can do

Speak up, speak up
Won't you tell us about it
You can ask, you can say
And you can sing
Speak up, speak up
And if you're outside you can shout it
As long as it's straight from your heart

Why oh why
Does a kitty cat meow?
And a coyote howl at the moon?
Looks like they found
Their very own sound
And it feels so good
To be true
And it just might work
For you too

Speak up, speak up
Won't you tell us about it
You can ask, you can say
And you can sing
Speak up, speak up
And if you're outside you can shout it
As long as it's straight from your heart
As long as it's straight from your heart
